

# PALLET HANDLING

**HYTROL**

## Rugged Durability

Heavy product requires heavy-duty conveyor. Hytrol's chain-driven conveyor is tough enough to carry your load.

[www.hytrol.com](http://www.hytrol.com)

When conveying heavy product or shipping a large quantity of product, most industries use pallets for support. To convey these pallets, specific conveyor is needed to ensure smooth motion and durability over the long term.

Hytrol's chain-driven line of conveyor demonstrates the power and durability needed for the task.

Check out these models for your pallet handling application:

199-CRR & CRRC

25/26-CRR & CRRC

36-CRRH

DC-60/63/82/83

Hytrol's patented EZLogic® Zero Pressure Accumulation Technology is also available with models:

25/36-CREZD

PLEZD (Plastic Bed)

DCEZ-60/63/82/83
