VMI-Express STOREROOM SOLUTIONS

IBT's **VMI – Express** service is designed to offer our customers the convenience of vendor-managed inventory, eliminating the need for the customer to spend time and resources to replenish needed inventory. Managed by IBT's experienced product specialists, and supported with the extensive inventory at our local stores, VMI-Express represents a significant cost savings for our customers. And, best of all, this second-to-none service is completely free to our customers.

HOW IT WORKS

VMI – Express is quick and simple to implement. Call your local IBT store, and get started in as little as one day; all it takes is three easy steps:

1. Your IBT representative barcodes the items you wish IBT to manage
2. You determine the Min and Max values for each managed item
3. Your IBT representative will return periodically to check and replenish your inventory

VMI-EXPRESS BENEFITS

- ▲ Free to IBT customers
