## BELTING

For many years, IBT has been a dependable supplier of industrial rubber products to the Midwest industrial community. We offer a full line of conveyor belting products for virtually every belting application, along with a range of splicing and special finishing services.

### FOOD HANDLING BELTING

- ▲ **Nitrile Covered FDA/USDA**  
Resists oily food products such as meat and poultry
- ▲ **PVC covered FDA/USDA**  
Economical belting suitable for vegetable processors, bakeries and canneries.
- ▲ **Polyurethane Covered FDA/USDA**  
These lightweight monofilament belts are commonly used in food processing, wet or dry meats, vegetables or dough.

### PAPER HANDLING BELTING

- ▲ **Paper Converting/Nylon Core**  
Rubber covered nylon core for moving paper products
- ▲ **Leather Covered/Nylon Core**  
Used for power transmission
- ▲ **Elastic Thermal Plastic**  
Used to move paper where multiple belts are on fixed shafts

### PACKAGE HANDLING BELTING

- ▲ **PVC covered**  
For general package handling and live roller conveyor applications.
- ▲ **Plied friction both sides**  
For slider bed and accumulating conveyor applications.
- ▲ **Incline belts**  
Used in box board and incline applications where a good grip is required.

### OTHER RELATED BELTING PRODUCTS

- ▲ **Elevator leg belts**  
IBT can punch leg belts to any bucket hole specification.
- ▲ **Leather belting**  
Still in use today primarily for power transmission.
- ▲ **Nylon-core power transmission belting**  
An excellent replacement for leather belts.  
Can easily be made endless.
- ▲ **Lightweight monofilament conveyor belts**  
Sometimes called European style. For applications where very wide widths and small pulleys and nose-bars are utilized.
- ▲ **Lacing**  
IBT stocks and installs either metal staple or hook types of lacing as well as non-metallic lacing.
- ▲ **Woven**  
Cotton, polyester and hi-temp materials used in baking, glass and aluminum manufacturing.
