Honeywell

Honeywell | Hearing Protection

Howard Leight™ Cap-Mounted Earmuffs

Howard Leight and North®. A unified solution.

Integrated Protection

Howard Leight Cap-Mounted Earmuffs

Honeywell has expanded the Noise-Blocking Earmuff product line to include Howard Leight Cap-Mounted Earmuffs to work with North® Hard Hats and Face shields. This expansion will greatly benefit users as the earmuffs have been engineered to seamlessly integrate with hard hat and face shield to provide an effective unit for worker head and hearing protection.

Face shield slot
New design allows for attachment of North Face shield visors for complete integrated protection on the job

Hard Hat clip
Easily and securely attaches earmuffs to several models of North Hard Hats

Leightning®
EM7206-HL

Fork Design
Simply press down on the fork to snap earmuffs into place

Colors
Same classic colors for both models

Howard Leight Leightning® Earmuffs

Maximum protection, contemporary design

27 NRR

- Robust steel construction withstands demanding use, especially in tough environments
- Features patented Air Flow Control™ technology for optimal attenuation
- Snap-in ear cushions make replacement quick and easy

Leightning® - EM7206-HL

Leightning® L3H

For use with North Hard Hats and Face shields

- Same attenuation as North Intruder cap-mounted earmuff
- Sleek design; lower profile cups attract less dirt for better hygiene
- Easy height adjustment provides a better fit for greater wearer comfort
- Ear cups snap in place during use and swing back when not in use

Howard Leight Thunder® Earmuffs

Top-of-the-line protection and comfort

23 NRR

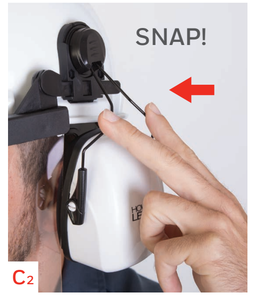
- Dielectric construction suitable for all workplaces, especially electrical environments
- Features patented Air Flow Control™ technology for optimal attenuation
- Snap-in ear cushions make replacement quick and easy
- Quick-Click height adjustment remains fixed during wear

Thunder® - EM2177-HL (Red)
- EM4157-HL (Blue)

Thunder® T1H

For use with North Hard Hats and Face shields

- Higher attenuation rating than North Mustang and Hornet cap-mounted earmuffs
- Sleek design; lower profile cups attract less dirt for better hygiene
- Easy height adjustment provides a better fit for greater wearer comfort
- Ear cups snap in place during use and swing back when not in use

ASSEMBLY IS A SNAP!


A. Push earmuff clips into slots on hard hat
B. Push arms of face shield bracket through slots in earmuff mount
C1. Leightning L3H style: push on earmuff forks until cups *snap* into place
C2. Thunder T1H styles: push on earmuff cups until they *snap* into place
